

## Release Notes 2.6.7

May 1, 2006

The following items have been moved (migrated) to Production for use by Agencies beginning on May 1, 2006.

- An online fix was made to the resend functionality for TSP Catchup actions. When the resend checkbox is selected these actions will now flow correctly to DFAS.
- An online fix was made to allow users to enter marital status and withholding allowances fields when processing tax actions for the following states: Nebraska (NE), New Mexico (NM), Oklahoma (OK), North Dakota (ND), Rhode Island (RI), Utah (UT), and Vermont (VT). Additionally, this change will enforce that state marital status and w/h allowances must equal to their federal marital status and w/h allowances.
- An online modification was applied to increase maximum amount for earning code 'Y01' to \$295,000 to accommodate PSP market pay conversion.
- An update script was developed to inactivate grades one through twelve for GM employees. GM employees are only allowed to have grades thirteen through fifteen. Therefore, the extraneous data was deleted to clean up the data and to prevent data entry errors.
